### **DETAILED ACTION**

This Office Action is a Non-Final Rejection in response to the application filed September 26, 2003 by **Inaba et al.**

#### ***Priority***

#### ***Information Disclosure Statement***

2. The information disclosure statement (IDS) submitted on September 26, 2003 is in compliance with the provisions of 37 CFR 1.97, and accordingly, has been considered by the examiner.

#### ***Drawings***

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "under-coat layer 44" is incorrectly described in the specification as being shown in Figure 7.
4. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet

Art Unit: 2875

submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

5. The disclosure is objected to because of the following informalities: on page 10 line 14 the applicant states the phrase "there available" when the applicant should state, "there are available".

Appropriate correction is required.
